Airbnb MagazineLayout #169	Apple Swift Numerics #355		

PROFESSIONAL SUMMARY

Final-year B.Tech Artificial Intelligence & Data Science student and Software Engineer with hands-on experience building full-stack applications, AI systems and scalable digital products. Currently building an ERP platform at DailyGurus. Built 70+ projects, including three 1st-place hackathon winners (HackIndia 2026, TN Police Hackathon 2025, Blaze a Trail 2.0). Open-source contributor with 14 merged pull requests across Meta, Apple, NVIDIA, Intel, Qualcomm, Cloudflare, Microsoft Azure, IBM, Docker, SAP, GitHub, AMD ROCm, Apache and Airbnb.

PROFESSIONAL EXPERIENCE

DailyGurus
Software Developer
Chennai, India
Jul 2026 – Present

- Worked on ERPNext, contributing to module customizations, workflows and application development.
- Developing a full ERP software platform from scratch across frontend, backend, database and business logic layers.
- Building and maintaining web applications using React.js, Node.js and TypeScript.
- Developing and optimising REST APIs and database integrations for scalable, reliable systems.

Data Patterns
Data Science Intern
Chennai, India
May 2025 – Jun 2025

- Built Python web-scraping tools to collect aerospace research papers and technical data from IEEE sources.
- Curated the data and fine-tuned an LLM using LoRA (Low-Rank Adaptation) on the domain-specific dataset.
- Evaluated model outputs and iterated on data processing and fine-tuning workflows to improve performance.

KEY PROJECTS

301 Super AI Agents — Sovereign Multi-Agent AI Platform
Local-first multi-agent AI platform with 301 specialised agents for real-world task automation.
1st · HackIndia 2026
Python LLMs (Ollama) Agent Orchestration FastAPI React.js OCR Workflow Automation

- Designed a multi-agent platform with 301 specialised agents coordinated by a central Agent 301.
- Implemented local model selection, OCR-based document processing, real-time streaming and workflow automation.
- Built an interface supporting offline, on-device inference for privacy-sensitive use cases. **Won 1st at HackIndia 2026 against 500+ teams.**

TOR-UNVEIL — Dark Web AI Cybercriminal Tracker
Full-stack AI platform adopted for live operational use by Tamil Nadu Police.
1st · TN Police Hackathon 2025
Python React.js Node.js Tailwind CSS Machine Learning Data Analytics

- Built a platform for real-time cybercriminal identification and network profiling on the TOR dark web.
- Developed advanced search, suspect profile cards and network-graph visualisation with role-based interfaces and ML threat classification.

AI Crop Recommendation & Agri-Intelligence Engine
ML-powered recommendation system for precision farming.
1st · Blaze a Trail 2.0
Python Machine Learning React.js REST APIs GIS Data Explainable AI

- Built an ML engine using soil, weather and GIS datasets to deliver actionable farming insights.
- Integrated a REST API backend with a React.js dashboard; applied Explainable AI for non-technical users.

CERTIFICATIONS

- Meta Front-End Developer (Coursera)
- React: The Complete Guide (Udemy)
- Google Cybersecurity Certificate (Coursera)
- Figma UI/UX Design Essentials (Udemy)

TECHNICAL SKILLS

LANGUAGES
Python JavaScript (ES6+) TypeScript SQL HTML5 CSS3

FRONTEND
React.js Tailwind CSS Bootstrap Material UI

BACKEND & APIS
Node.js Express.js REST APIs Web Scraping

DATABASES
PostgreSQL MySQL MongoDB

AI / ML
Machine Learning Deep Learning LLMs LoRA Prompt Engineering OCR Computer Vision Scikit-learn

TOOLS & OTHERS
Git GitHub VS Code Postman Docker Figma Linux AWS

EDUCATION

B.Tech – Artificial Intelligence & Data Science
St. Joseph's Institute of Technology, Chennai
2023 – 2027
CGPA 8.2 / 10 · No Arrears

ACHIEVEMENTS

- 1st** – HackIndia 2026 (301 Super AI Agents)
- 1st** – TN Police Hackathon 2025 (TOR-UNVEIL)
- 1st** – Blaze a Trail 2.0 (Crop Recommendation)
- Finalist** – TN Police Hackathon 2024
- Winner** – 6 National-Level Technical Symposiums
- 70+** other projects across AI, Web & Automation

ADDITIONAL

Languages: English, Tamil, Malayalam
Interests: Technology, Product Development, Open Source
Soft Skills: Problem Solving, Team Collaboration, Leadership, Technical Communication
